

TRIPLE STRIKE

ALGAE-FLOC CONTROL

TECHNICAL GRADE WATER FLOCCULANT

ACTIVE CONSTITUENT:
Alum - Calcium Sulphate

**ULTIMATE
INDUSTRIAL**

Ph: 1800 003 244

www.ultimateindustrial.com.au

PRODUCT DESCRIPTION:

TRIPLE-STRIKE is a concentrated liquid suspension for the treatment of Algae, is also a water flocculent.

TRIPLE-STRIKE is a one step Algae treatment. **TRIPLE-STRIKE** does not kill the Algae like most other products, it starves the Algae of nutrients over time and has a unique 3 – way action, by coagulating and flocculating the Algae to the bottom forming a blanket over the Algae and inhibiting any new growth.

TRIPLE-STRIKE will generally lower the water pH by 0.5-1.0 units, this will assist in preventing further growth.

TRIPLE-STRIKE has passed a fully independent ECO-TOXICITY assessment report.

***TRIPLE-STRIKE has passed a fully independent
ECO-TOXICITY assessment report.***

APPLICATION RATES:

TRIPLE-STRIKE dosage rates may vary depending on Turbidity of the water for flocculating, and the intensity of the Algae Bloom for Algae treatment.

TRIPLE-STRIKE dilute at 1 part product to 2 parts water as a minimum, keep agitating to prevent settling in the tank.

ALGAE TREATMENT	
Light Bloom	75-100 litres per Megalitre
Heavy Bloom	100-125 litres per Megalitre
FLOCCULATING TREATMENT	
Light Turbidity	50-75 litres per Megalitre
Heavy Turbidity	75-100 litres per Megalitre

PACK SIZES AVAILABLE (LITRES): 200, 800 Litres
