

HYDRA-GYP

NATURAL FLOCCULENT

TECHNICAL GRADE WATER FLOCCULANT

ACTIVE CONSTITUENT:
Calcium Sulphate: 80% w/v

**ULTIMATE
INDUSTRIAL**

Ph: 1800 003 244

www.ultimateindustrial.com.au

PRODUCT DESCRIPTION:

HYDRA-GYP is a concentrated technical grade liquid suspension that contains 80% w/v of super fine – milled gypsum with 90% purity, **HYDRA-GYP** is applied for flocculating sediment ponds and waste water etc.

HYDRA-GYP is more effective in its application compared to bulk gypsum and has passed a fully independent ECO-TOXICITY assessment report.

HYDRA-GYP is the most eco friendly product for flocculating water bodies.

HYDRA-GYP is much easier to handle and apply compared to other products and provides quicker and more effective results.

HYDRA-GYP reduces labour costs and less OH&S concerns compared to other products.

***HYDRA-GYP has passed a fully independent
ECO-TOXICITY assessment report.***

APPLICATION RATES:

HYDRA-GYP dosage rates may vary depending on Turbidity of the water, we recommend the following application rates as a general guide.

HYDRA-GYP dilute at 1 part product to 2 parts water as a minimum, keep agitating to prevent settling in the tank.

TREATMENT	APPLICATION RATE
Light Turbidity	75-100 litres per Megalitre
Heavy Turbidity	100-125 litres per Megalitre

PACK SIZES AVAILABLE (LITRES): 200, 800 Litres
